- Toll-free numbers enable you to create a brand that people will remember, just like 1-800-FLOWERS. Research has consistently shown that customers are 14 times more likely to remember vanity numbers than normal phone numbers

How do I get 1-800-CLOGGED to ring at my office?

- We work with a leading-edge telecommunications provider and they take care of the rest. You tell us the area codes you work in and how much area (example: counties) you want the number to cover. For example: let's say you work in Chicago and you want to receive every call from everyone who calls 1-800-CLOGGED from the 773 area code. Our telecom provider will automatically route every call made to 1-800-CLOGGED from the 773 area code to your office.

Do I need a new phone line?

- No. Our technology automatically routes all calls to your existing phone number (or any number you choose!). Best of all, the routing is transparent to the callers. They dial the toll-free number and your office answers, that's it!
